

July 1, 1948

Mr. Fred Kaderli, Superintendent
San Marcos Public Schools
San Marcos, Texas

Dear Superintendent Kaderli:

The "Mexican" part of our community appreciates the fact that you have been willing to discuss with us the educational problems of our community. Since you have asked some of us for an expression of opinion regarding some of these problems, the undersigned want to offer their cooperation by meeting your request.

You are probably aware that we have been very much dissatisfied with the operation of the Southside School; both because it has been, in our estimation, an inferior school and, more particularly, because it has been a segregated school for "Mexican" children. In a respectful spirit of cooperation, we protest those conditions and urge you to do everything possible to remedy the situation.

It has been good of you to ask our views about the proposed enlargement of building facilities in the public schools of San Marcos. We are sorry to say that, lacking expert knowledge in these matters, we have very little to contribute in the way of specific recommendations as to what kind of buildings we should have, where they should be located, and so forth. We assume that our School Board and you, our Superintendent, are in a much better position to decide these rather technical and specialized questions. Our only recommendation in this matter is that, whatever is done about the construction of classroom or school buildings, the practice of segregating children of Mexican descent be stopped forthwith, whether it be at the present Southside School or at any new buildings. In the past, the policy of permitting children, who live in the "Mexican" neighborhood, to transfer to the "campus" school has resulted in making the Southside School a segregated school attended only by children of Mexican descent. We trust that no such policies will be followed in the future, and we again enlist your cooperation in doing everything possible to prevent the continuation of the segregation of our children.

Please be assured that the undersigned, and all their friends, stand ready to give you and the School Board every assistance that

Mr. Fred Kaderli, Superintendent, San Marcos, Texas, July 1, 1948, page 2.

they can in the development of the best possible program of public education in San Marcos. Do not hesitate to call us for any help that we may be able to give.

Sincerely yours,

Guadalupe Hernandez
