

September 3, 1943

Mr. M. C. Gonzales
P. O. Box 1991
San Antonio, Texas

Dear Mr. Gonzales:

I am enclosing a letter and a clipping which I received from California and which will be of interest to you. I have written Mr. Mendez asking him to send me whatever specific information he can get on this case.

I went to New Braunfels on Tuesday and had a long talk with Supt. Sahn. He assured me that he was completely well disposed towards receiving in all schools all the children from the surrounding area who might apply. He insists that segregation is not enforced and will not be enforced in New Braunfels - that "Mexican" children will be received in all schools. I later talked to Mr. Garza by phone and told him of the superintendent's very favorable attitude and I recommended that they take him at his word and cooperate with him to the fullest extent. Many "Mexican" families are going to send their children to the "white" schools this year. Registration took place this past Wednesday and I have had no reports as to what was actually done. It will be interesting to see whether Mr. Sahn was able to put into practice the very enlightened point of view which he expressed to me. Two members of the University faculty, Dr. Harry Moore (Assistant Professor of Sociology) and Dr. George Joughin (Assistant Professor of English), have agreed to serve on our civil rights committee. Please speak with Mr. Fox and Mr. Lufton as to when they would be available for a meeting to establish a definite organization. We could go to San Antonio or you could come to Austin, whichever seems most convenient at the time. Before such a meeting, however, I would like to have a long conference with you. Are you coming this way in the next few days? I won't be able to leave town until Mrs. Sanchez has returned from the hospital and has gained a little strength.

I hope you made your trip to Monterrey all right and that you found your family in good shape. When are you leaving for Mexico and Guatemala?

Once our committee is well organized here I will probably want to go to New York to make final arrangements for the granting of the funds and to establish definitely our lines of communication with the organizations out there. Since I hope to make this eastern trip before the end of October, this means that we should bring our committee together soon.

Cordially yours

George I. Sanchez
